Professional Summary

Backend software engineer with two live production systems serving **3,000+** users. Architected and built ProStriver, a dual-cloud Spring Boot platform with LLM integration that onboarded 220+ users within its first week. Solved over **500** LeetCode problems with a contest rating of **1643** and ranked **#1** across a 5-round DSA hackathon series by Meta Developer Communities. Internship experience in Spring Security, REST APIs, and production-grade testing.

Education

GITAM University

Bachelor of Technology, Computer Science & Engineering – CGPA: 8.98/10

Visakhapatnam, AP

Jul 2023 – May 2027

- **Vice President, AWS Cloud Clubs GITAM** (Nov 2025 – Present): Leading a 60+ member cloud computing community. Increased active participation by 20% through AWS Jam sessions and peer-led project builds.

Experience

Software Engineer Intern

Landmine Soft (MSME-Recognized Startup) | [Certificate](#)

Remote

Apr 2026 – May 2026

- Built 20+ production-grade REST APIs using Java and Spring Boot within a cross-functional engineering team, contributing to core backend modules focused on performance, reliability, and clean API design.
- Engineered end-to-end authentication and authorization using Spring Security with JWT (access + refresh token flows) and role-based access control, securing all endpoints against unauthorized access.
- Achieved **87%** unit test coverage using JUnit and documented all APIs with Swagger/OpenAPI, reducing integration errors and accelerating cross-team delivery.

Projects

ProStriver | Java 21, Spring Boot, Redis, PostgreSQL, Docker, AWS EC2, GitHub Actions | [Live](#) | [GitHub](#)

Jan 2026

- Built a production student productivity platform with OTP-based JWT auth, spaced-repetition engine, personalized study plan generation via Gemini API, and automated daily email digests via Brevo API.
- Optimized **Gemini API** integration using dynamic prompt engineering with real-time student data. Applied Redis caching and API key rotation with rate limiting to maintain consistent response times under load.
- Deployed on dual-cloud architecture: Spring Boot API server on **AWS EC2**, scheduled background jobs on **DigitalOcean**. GitHub Actions CI/CD pipeline auto-builds, containerizes, and deploys to both servers on every push to main.

AI-Powered Crop Yield Prediction | Spring Boot, FastAPI, Random Forest, MySQL, React | [GitHub](#) | [Demo](#)

Sep 2025

- Led a 6-member SIH 2025 team to engineer a crop intelligence backend, integrating a FastAPI ML microservice via RestTemplate for real-time yield predictions across **50+** crop types with **89%** model accuracy and sub-second response times.
- Implemented JPQL-based autocomplete search and a top-N crop recommendation engine ranked by predicted yield. Designed relational schemas optimized for multi-dimensional prediction outputs.

GITAM Aero Astro Club Platform | Spring Boot, JWT, PostgreSQL, Spring Security | [Live](#) | [GitHub](#)

Jul 2025

- Architected and deployed the complete backend for the official club platform serving **2,500+ students**. Engineered **40+** secure RESTful APIs with JWT auth, RBAC, and an admin dashboard with real-time metrics.
- Automated end-to-end recruitment workflows and email notifications, reducing manual admin effort by **70%** while maintaining **98%** uptime.

Technical Skills

Languages: Java, Python, JavaScript, SQL

Backend & Frameworks: Spring Boot, Spring Security (JWT, OAuth 2.0), JPA/Hibernate, JUnit, Docker

Cloud & DevOps: AWS (EC2, S3, Lambda, IAM), GitHub Actions, CI/CD, Linux, Git

Databases & Caching: PostgreSQL, MySQL, MongoDB, Redis

Concepts: REST API Design, Microservices, Scalability, Rate Limiting, OOP, Data Structures & Algorithms

Achievements

Top Performer – Meta Code Quest – Ranked #1 overall across 5 monthly DSA hackathons by Meta Developer Communities, GITAM (Nov 2025 – Mar 2026) | [Post](#)

3rd Place – Shore Fest 2026 Hackathon – Secured 3rd place in an 8-hour hackathon building KhetSetu, a peer-to-peer farm equipment rental platform (Feb 2026) | [Post](#)

LeetCode – Solved 500+ problems, contest rating 1643 | [Profile](#)
